Hyperfast, simple and digitally inclusive

Why our customers choose Wefibre?

Stay flexible

You can sign up for a year or roll monthly, whatever suits you.

No sneaky fees

We'll never raise your price during your commitment period.

Unlimited usage

Stream, browse, download, socialise and game to your heart's content.

Perfect for gaming

Play hard and stream hard, with 6 x the nations average upload speeds.

Share big files in a flash

Feel the speed when you download, share even the biggest files.

Ultrafast, ultra-reliable

Post cat photos whilst you stream, our network is tested at 99.99% reliability.

We dared to do what all other providers can but won't. We're the only provider in the UK to offer Gigabit only hyperfast full fibre broadband at an unbeatable affordable price point.

They wouldn't, so WeFibre did.

We're the broadband provider the industry doesn't want to see win

We believe in impact, we believe in digital inclusion, we believe if everyone has access to Gigabit fibre great things can happen in Britain.

We stand for one thing

Gigabit internet, nothing more nothing less. We could offer you a whole load of other lesser speed products but why would we bother when we can give everyone a Gig. We only offer one Gigabit product for both home and business customers. Simple and packs a punch.

No strings and no sneaky fees

Not only do we like to keep things simple but we also like to keep them flexible. Sign up for a year or roll monthly if you can't or don't want to commit – it's up to you. We'll never increase your price during that period. So, if you've signed up for 12 months at one price, that's the price it'll stay all year.

Choose your full fibre gig

Speed

Price

Package details

Install fee

Gig Home

1 Gbps (1,000Mbps)

12 months £20 Rolling £30

Unlimited data
Average speed 900Mbps
Free router

£49 installation fee
Or
free with a Rural Gigabit
Connectivity (RGC) Voucher

Gig Business

1 Gbps (1,000Mbps)

12 Months £60 Rolling £72

Unlimited data
Average speed 900Mbps

£49 installation fee
Or
free with a Rural Gigabit
Connectivity (RGC) Voucher

*Average speeds, achievable by 50% of users, are 900Mb on a 1Gb connection.
900Mb speed is not achievable by a single device over wifi, for this speed a wired connection is required.

Sign up on wefibre.com and try us out commitment free!

Our own fibre network can operate alongside your current broadband service so why not try us for free for 30 days. If you're not blown away by our **1,000Mbps** speeds, you can leave us free of charge - no hard feelings!

When the UK average is just 54.2Mbps as our competition like to point out, why would we sell you the average.

We're about extraordinary.

Our mission is to simply to do the right thing for Britain by ensuring everyone has the access they need and deserve.

PRICE MATCH GUARANTEE*

*We don't need to price match, we're the provider others fear to price match, you can hold us to that.

Switching is as easy as 1, 2, 3...

How do we work with local communities?

WeFibre is a part of Telcom Group, who are on a mission to change the world by empowering communities. WeFibre has been specifically designed to unlock all the benefits of the governments RGC & BUF programmes, in turn ensuring they help local rural communities get future-ready with Hyperfast broadband.

Visit wefibre.com/rural-community-fibre to discover more about our Rural Community Fibre programme.
